M12 FUELTM RIGHT ANGLE IMPACT WRENCH

WIRING INSTRUCTIONS

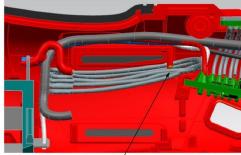

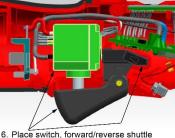

4. Place LED light in recess with the red wire to the top

2. Seat PCBA in recesses

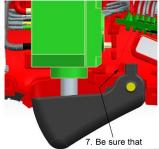

3. Place wires in traps

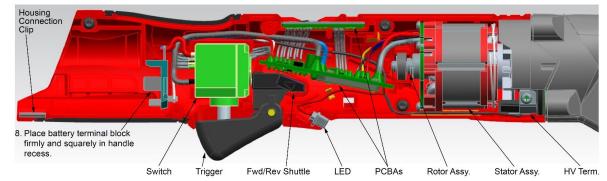

5. Route cable through this groove

 Place switch, forward/reverse shuttle and trigger in handle support recesses as shown

trigger aligns with rib as shown

Prior to installing the Housing Cover, be sure all elements of the Electronics Assembly are seated properly (Stator, Main PCBA, Selector PCBA, On-Off Switch, LED Assembly and Battery Terminal Block Connector). Be sure the Grounding Terminal is in place and that all wires are pressed down into all wire traps and channels. Check to assure that

wires will not interfere with moving parts. Prior to installing the Housing Cover, place Forward/Reverse Shuttle onto On-Off Switch and through Housing Support opening. Check to assure that wires will not be pinched. Secure the Housing Cover to the Housing Support with five M3 x 16mm ST T-10 Screws. Be sure to replace the Housing Clip at the bottom of the battery opening.
